PROFILE

I am Bhoomika Gautam, currently pursuing BCA from IILM University, Greater Noida. I have developed my skills in the field of Data Analyst with hands-on experience in Power BI, SQL, Excel, and Python, specializing in dashboard development, data cleaning, and business insights. Strong foundation in visualization and data-driven decision making.

TECHNICAL SKILLS

- Data Analytics: Power BI, Tableau, Excel (Advanced), SQL
- Programming: Python (Pandas, NumPy), R (Basics)
- Data Concepts: Data Cleaning, EDA, Visualization, KPIs
- Web (Secondary): HTML, CSS, JavaScript

PROJECTS

MediCare Hospital Analytics Dashboard – Power BI

- This project focuses on analyzing hospital data using Power BI to improve decision-making. The dashboard tracks key metrics such as patient admissions, billing amounts, bed occupancy, insurance coverage, and diagnosis trends. It helps hospital management understand resource utilization, revenue patterns, and patient flow through interactive charts, KPIs, and filters.

Grocery Billing System (Python | Tkinter | SQLite)

Built a Python-based grocery billing system with Tkinter and SQLite for automated billing and invoice generation.

EcoMuse – AI-Assisted Song Emotion Analysis System

Web Application | Python (Flask), HTML, CSS

- Built a web application that analyzes song lyrics to infer emotional tone and meaning, comparing AI-generated sentiment insights with human interpretation.

EDUCATION

IILM University, Greater Noida Bachelor of Computer Applications
(2023–2026)

Sun Valley International School:(Science)10th and 12th

CERTIFICATIONS

- DBMS Course – Great Learning
- SQL Basics – Data Flair
- Networking Basics – Cisco Networking Academy
- Artificial Intelligence – Simplilearn
